INTERNAL WATERPROOFING

INDUSTRY BEST PRACTICE

This course brochure will inform and guide you through the Internal Waterproofing - Industry Best Practice course. Please read the following information carefully to understand all the course requirements and assessments to ensure that it is suitable for your needs.

ABOUT US

Master Builders Association of NSW is a Registered Training Organisation (RTO 6163) offering nationally recognised qualifications and courses across New South Wales which meet endorsed industry standards. Pathways to qualifications include full training and assessment, assessment towards Recognition of Prior Learning (RPL) and gap training.

COURSE OVERVIEW

The Internal Waterproofing Industry Best Practice short course is designed to help participants learn industry best practice of internal waterproofing, including preparation of surfaces for internal wet areas in accordance with Australian Standard AS 3740-2010 Waterproofing of domestic wet areas.

NATIONALLY RECOGNISED TRAINING

On successful completion of the Internal Waterproofing – Industry Best Practice short course, Master Builders will issue a Statement of Attainment for the following Nationally Recognised units:

- **CPCCOHS2001A** Apply OHS requirements, policies and procedures in the construction industry
- **CPCCW2001A** Handle waterproofing materials
- **CPCCW2004A** Prepare surfaces for waterproofing application

These units of competency can provide credits towards a nationally recognised qualification in *CPC31411 Certificate III in Construction Waterproofing*, which is offered by Master Builders.

LOCATION AND DURATION

This course is delivered over two (2) days at various Master Builders offices, refer to our website for locations where this course is currently available.

Visit www.skillassessment.com.au/courses for up to date information on scheduled courses.

ENTRY REQUIREMENTS

As this training may be subsidised by NSW Government, the following eligibility criteria applies:

- You live or work in NSW
- You are an Australian citizen or Australian permanent resident or a humanitarian visa holder, or a New Zealand citizen
- You are no longer attending school

Master Builders also applies the following entry requirements:

- You have a valid White Card (general construction induction card)

In addition to the above, you must meet the following criteria:

- a. You have at least one year of building industry experience with awareness of waterproofing principles, practices and products, **AND**;
- b. You have no more than three months experience in a waterproofing job role, **AND**;
- c. You achieve a minimum of 80% correct answers in the Technical Industry Questions within the application process, **AND**
- d. You are able to provide contact details of one referee who is a licenced or qualified Waterproofer or Builder

REQUIRED PARTICIPANT RESOURCES

COURSE MATERIALS

You will not be required to bring any materials or purchase specific books to complete this course. A pen and notepad for individual note taking is recommended. Master Builders will provide all course materials and resources on the day of training.

CLOTHING REQUIREMENTS

Whilst undertaking this course, you will be required to wear closed footwear and appropriate clothing suitable for a building site environment such as high visibility shirts or vests (no thongs, singlets, etc).

COURSE DELIVERY AND ASSESSMENT

The units of competency within this course cover the following topics:

- Identify hazardous materials and other hazards on work sites
- Manually handle waterproofing materials
- Prepare for mechanical handling of materials
- Handle and remove waste materials and clean-up work area
- Prepare and repair substrate

This course is delivered and assessed face-to-face in a classroom. Assessments will include the following:

- **Written assessments** designed to obtain evidence of the knowledge required to perform waterproofing activities at a competent level. This will include a knowledge questionnaire where you will complete short answer questions.
- **Practical assessments** designed to be conducted one-on-one or in a small group. Where practical assessments are conducted in a small group, the assessor will ensure that all aspects of assessment are clearly assessed for each participant in the group (this may involve tasks being completed more than once to ensure that each participant is competent).
- **Assessment on observable behaviour** including oral questions designed to assess technical criteria relevant to techniques required for the units of competency delivered in the course.

You will be provided with a briefing of what is required to successfully complete these assessments; to ensure that you are completely aware of the assessment requirements as well as the required skills, knowledge and behaviour that the assessor will be looking for whilst conducting assessments. You will be offered multiple opportunities to demonstrate knowledge and skills throughout the course. At the completion of all the assessment tasks, you will be provided feedback on your abilities and responses.

Upon completion of the course, your assessor will provide you with a result before progression to the certification stage, and prescribe one of the following outcomes:

- If you are assessed as 'competent' in all units of competency, you will progress to the certification stage.
- If you are assessed as 'not yet competent' in any units of competency, a Statement of Attainment will not be issued and you will be invited to re-enrol into this course again at any time.

TRAINING QUALITY AND CERTIFICATION

Master Builders is responsible under the National Vocational Education and Training Regulator Act 2011 for the quality and delivery of training and assessment and will be the organisation issuing an AQF certificate or statement of attainment to participants.

FEES

This program may be subsidised by the NSW Government Smart and Skilled initiative. Where subsidies are available and applied to the training and you meet the above mentioned eligibility criteria, there is no student fee payable.

Where there are no subsidies available for the delivery of this training, fees are as follows:

Master Builders Members	\$500
Non-Members	\$550

Payment of fees is required upon enrolment. All participant fees are GST exempt.

Visit www.smartandskilled.nsw.gov.au to learn more about the Smart and Skilled program.

WHY MASTER BUILDERS?

- ✓ **Quality** - we care about our industry
- ✓ **Recognition** - we are respected by the industry
- ✓ **Affordability** - we offer cost-effective courses
