

SuperSafe

Work Health and Safety for Construction Supervisors

BACKGROUND

SuperSafe is a two day Building and Construction Industry specific work health and safety training course targeted at construction site supervisors.

Supersafe has been developed on behalf of the Construction Safety Alliance (CSA) with the support and assistance of Master Builders as well as WorkCover NSW.

The course has been designed to reflect current approaches to developing a safety culture in the construction industry and has been aligned with parts of the Construction Safety Competency Framework (CSCF), "Improving OHS performance by creating and maintaining a safety culture" and Cert IV WHS.

COURSE AIMS

- To motivate participants to adopt a systematic, risk management style of management and leadership
- To provide participants with the practical skills needed to be an effective supervisor
- To provide participants with the skills and behaviours to positively affect the safety culture on their jobs
