SuperSafe Work Health and Safety for Construction Supervisors

BACKGROUND

SuperSafe is a two-day Building and Construction Industry specific work health and safety training course targeted at construction site supervisors.

Supersafe has been developed on behalf of the Construction Safety Alliance (CSA) with the support and assistance of Master Builders NSW.

The course has been designed to reflect current approaches to developing a safety culture in the construction industry and has been aligned with parts of the Construction Safety Competency Framework (CSCF), "Improving WHS performance by creating and maintaining a safety culture" and Cert IV WHS.

COURSE AIMS

- To motivate participants to adopt a systematic, risk management style of management and leadership
- To provide participants with the practical skills needed to be an effective supervisor
- To provide participants with the skills and behaviours to positively affect the safety culture on their jobs

Booking Conditions

If a participant is unable to attend and another participant is substituted in their place, there will be no additional charge provided that the Master Builders Safety Team has been advised of this change five (5) working days prior to the session commencement date. Alternatively, if a participant is unable to attend and they re-schedule for the next session, there will be a 10% transfer charge applied to the course charge, provided that the Master Builders Safety Team has been advised of this change prior to the session commencement date. If notice is not given prior to the commencement date, the credit card or member account will be charged the full cost of the session / training. Participants are only able to re-schedule on two occasions, after which time the credit card or member account will be charged the full fee for the session if the participant does not attend the session. No refund will be made if the participant(s) fail to attend on the day of the session without prior notification.
