CPC31420 CERTIFICATE III IN CONSTRUCTION WATERPROOFING

RECOGNITION OF PRIOR LEARNING (RPL)

OVERVIEW

Master Builders Association of NSW Pty Ltd (Master Builders) is a Registered Training Organisation offering nationally recognised qualifications and courses across New South Wales which meet national industry standards.

The **CPC31420 Certificate III in Construction Waterproofing**, RPL offered by Master Builders is designed to formally recognise skills already gained through on-the-job construction waterproofing related experience by a process called Recognition of Prior Learning.

This qualification provides a trade outcome in construction waterproofing, covering residential and commercial work. Upon successful completion you will achieve qualification **CPC31420 Certificate III in Construction Waterproofing** or a Statement of Attainment for units deemed competent.

WHAT IS RPL?

Recognition of Prior Learning (RPL) is an assessment pathway that has been designed to acknowledge your full range of skills and knowledge, irrespective of how it has been acquired. This includes competencies gained through formal and informal study, work experience, employment, and other life experiences.

Master Builders is committed to helping you get your experience recognised, irrespective of where and how your learning has taken place.

WORK REQUIREMENTS

Applicants must be employed under licenced builders or tradespeople for at least three years and have access to work sites to be able to complete the RPL and workplace projects in the RPL pathway.

By enrolling into an RPL pathway, you are responsible for access to resources and the range of jobs that are needed to be able to provide required evidence.

ENTRY REQUIREMENTS

Master Builders applies the following entry requirements:

- a minimum of three years full-time (or equivalent) construction waterproofing related experience in the construction industry (experience must be within the last 10 years)
- a valid White Card (General Construction Induction card)
- currently working on active construction waterproofing projects
- able to provide details of two referees to confirm your work history/experience. Referees must be a qualified/licenced tradesperson in construction waterproofing and have worked with you for 12 months or more
- able to answer at least 80% of the technical industry questions correctly during your application process.

This RPL pathway has been designed to meet part of the NSW Fair Trading criteria to apply for a Waterproofing Contractor Licence. NSW Fair Trading have specific criteria in addition to this qualification.

Visit the NSW Fair Trading website for further information www.fairtrading.nsw.gov.au.

SMART AND SKILLED

This training may be subsidised by the NSW Government under the Smart and Skilled initiative. If you are eligible for the government subsidy, your student fee will be determined by the NSW Government.

Smart and Skilled prices are subject to funding availability. Fees and funding will be confirmed once we have received your successful application.

To be eligible, you must also meet the following Smart and Skilled eligibility criteria:

- You are at least 15 years old
- You live or work in NSW
- You are an Australian citizen or permanent resident or a humanitarian visa holder, or a New Zealand citizen
- You are no longer attending school

ENROLMENT

You will be required to provide evidence of meeting entry requirements upon enrolment, including any transcripts you have achieved from any prior training.

On enrolment, you will be required to provide copies of:

- Drivers licence (photo ID with address)
- Green Medicare Card or Passport
- A valid White Card

Participants will require sufficient language, literacy, and numeracy skills to be able to engage in the assessment and to perform workplace tasks such as calculating materials, interpreting building plans and specifications, and recording work outcomes. If you require assistance, please contact us to discuss options available to you.

It is anticipated that the RPL process will take between three (3) and six (6) months. You should aim to have the knowledge questions completed in the first two (2) months.

It is a condition of enrolment that you have access to resources and job sites where you can undertake practical projects.

RESOURCE REQUIREMENTS

An RPL pathway will require you to have access to a construction work site and at least the below items:

- Computer with internet access
- Phone or laptop/iPad to gather video and photo evidence of undertaking practical tasks
- Personal Protective Equipment (PPE) including steel cap work boots, hearing protection, eye protection, and that all electrical tools and leads are tested and tagged
- Tools of the trade, materials, and equipment to perform the assessment tasks including:
 - Angle grinders / caulking guns
 - Mixers and mixing apparatus
 - Electric drills and screwdrivers
 - Hammers / chisels
 - Dumpy, laser and water levels
 - Fusion and nylon rollers
 - Measuring tapes and rules
 - Heat welders / impact drills
 - High pressure water equipment
 - Solvent applicators
 - Seam probes / wood floats
 - Gas burners and torches
 - Moisture meters / vacuum cleaner
 - Floodlights and fans
 - Pressure injection equipment

RPL ASSESSMENT METHODS

You will be required to complete an RPL Kit which includes sections for:

- Knowledge questions
- Practical projects and observations

The knowledge questions are a series of questions designed to be answered comprehensively. These questions relate to different units within the qualification and assess understanding of tasks and processes within the construction industry.

A portfolio of evidence is to be collected for practical projects outlined in your RPL kit. This evidence includes documentary evidence, photos, and videos. Detailed instructions of evidence required and tasks to be undertaken are included in the RPL Kit.

You will be required to have access to a variety of jobs waterproofing jobs including internal, external, below ground, and remedial tasks. Sample evidence you will be required to provide relates to:

- Planning projects and construction site safety
- Waterproof bathroom on a suspended slab
- Install bath and shower
- Construct frame for sink or basin
- Cut, measure and fix villa board sheets
- Inject chemical damp course in cavity wall
- Waterproof concrete slab balcony in a cavity brick building
- Waterproof a basement wall excavated in a clay work site
- Repairing cracks in a concrete basement or suspended car park slab
- Demolition and site clean up

FEES AND SUBSIDIES

A general guide to fees for this qualification pathway is:

Smart and Skilled subsidised	
If you do not hold previous qualification	from \$1,480
If you hold a previous qualification	from \$1,770
Indicative pricing without NSW Government Subsidy	
Master Builders Member Rate	\$2,200
Non-Member Rate	\$2,400

MBA does not accept more than \$1,500 in advance of service being provided. Please refer to the [website](#) for full details on the fee payment structure.

RPL STRUCTURE

In order to successfully achieve the **CPC31420 Certificate III in Construction Waterproofing**, participants must be assessed as competent in nineteen (19) units of competency. The units of competency offered by Master Builders are:

CODE	UNITS OF COMPETENCY
Participants must undertake the following <u>mandatory</u> core and elective units:	
CPCCOM1012	Work effectively and sustainably in the construction industry
CPCCOM1013	Plan and organise work
CPCCOM1014	Conduct workplace communication
CPCCOM1015	Carry out measurements and calculations
CPCCOM2001	Read and interpret plans and specifications
CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry
CPCCWP2001	Handle waterproofing materials
CPCCWP2002	Use waterproofing tools and equipment
CPCCWP2004	Prepare surfaces for waterproofing application
CPCCWP3001	Apply waterproofing process to below-ground level wet areas
CPCCWP3002	Apply waterproofing process to internal wet areas
CPCCWP3003	Apply waterproofing process to above-ground external wet areas
CPCCWP3004	Apply waterproofing remedial processes
CPCCWP3005	Assess construction waterproofing process
Participants are also required to undertake the following five (5) <u>elective</u> units below:	
CPCCCM2009	Carry out basic demolition
CPCCCA3012	Frame and fit wet area fixtures
CPCCPB3004	Fix wet area sheets
CPCCSH2003	Apply and install sealant and sealant devices
CPCCWHS3001	Identify construction work hazards and select risk control strategies
