

**SuperSafe**

# WHS FOR CONSTRUCTION SUPERVISORS

SuperSafe is a two-day Building and Construction Industry specific work health and safety training course targeted at construction site supervisors

**DON'T MISS OUT ON THIS AWESOME OPPORTUNITY!**

Our SuperSafe courses are held over two days at the Master Builders Head Office 52 Parramatta Rd Forest Lodge.

**Master  
Builders  
Association**  
New South Wales

## BACKGROUND

SuperSafe has been developed on behalf of the Construction Safety Alliance (CSA) with the support and assistance of Master Builders NSW.

The course has been designed to reflect current approaches to developing a safety culture in the construction industry and has been aligned with parts of the Construction Safety Competency Framework (CSCF), "Improving WHS performance by creating and maintaining a safety culture" and Cert IV WHS.

## COURSE AIMS

- To motivate participants to adopt a systematic, risk management style of management and leadership
- To provide participants with the practical skills needed to be an effective supervisor
- To provide participants with the skills and behaviours to positively affect the safety culture on their jobs

## COURSE TOPICS

- WHS Legislation Compliance
